## Health Department Announces Virtual COVID-19 Vaccine Q&A Office Hours Series

The Tompkins County Health Department (TCHD) is announcing a series of virtual COVID-19 Vaccine Q&A “Office Hours” in partnership with local physicians and community members. Each virtual event is designed to offer a safe space and informative experience for attendees seeking more information on COVID-19 vaccines. During each event, attendees will have the ability to ask questions live or anonymously. Each event will be moderated by a member of the community or TCHD staff and will focus on the safety and efficacy of the vaccines, for vaccine logistics refer to the TCHD [website](#).

Full details can be found here:

TWO things to **KNOW**  
SAY  
DO

### Two things to **KNOW**

1. Increased vaccine supply is expected. **We need to be prepared.**
2. **Your relationships and networks** are what will make this work.

### Two things to **SAY**

1. Thank you for offering up a potential POD location. **How can you also help with outreach?**
2. Getting COVID is worse than the vaccine side effects. Get immunized and get the second dose.

### Two things to **DO**

1. **Prepare yourself and your network for the call!** Talk to your list of people in advance so they are ready when we need their help.
2. **Please continue to share** your education and outreach materials with us.
