

COVID-19 Vaccines . . . It's up to you!

COVID-19 Vaccines are now available to anyone 16 and older. You might be asking yourself... Should I get it? Will it help me get back to work, travel, visit my family, and be with my friends again? It's normal to have questions.

The Vaccines are SAFE and EFFECTIVE. They will SAVE LIVES.
They will protect you and those you love from this deadly disease.
Vaccines can help put an END to the pandemic.

Experts predict that 70-90% of the population will need to be vaccinated in order to achieve herd immunity. Even if you are not in a high risk category, protecting yourself and others from COVID-19 is a smart choice for everyone.

Email us at COVID19@co.chenango.ny.us for a link to a vaccine appointment.
